AMENDMENT ONE (1)

August 22, 2018

TO:

SUBJECT: IFB054DPWC18 (C) Repairs to Route 63 (Road along Whim Ball Park), Frederiksted, St. Croix.

INSERT: Question & Answer

For line item 305.01 – Full Depth Reclaiming, can a roadway milling machine be used in place of the roadway reclaiming machine?

Based on FP-14 section 305 specifications the only requirement not met by the milling machine is the width of the cutting drum; 8 ft wide vs the milling width of 5-6 ft. The milling machine will meet the same depths and can pulverize the road in place.

- A. In response to your question as whether a milling machine can be used in lieu of a reclaiming machine that answer would be yes. Either machine will do.

All other terms and conditions remain the same.

A copy of this amendment must be returned with your bid.
